About Pacific West Area

What is the Pacific West Area?

The Agricultural Research Service (ARS) is the principal research agency of the U.S. Department of Agriculture (USDA). ARS, one of the Research, Education and Economics (REE) agencies, is charged with extending the Nation's scientific knowledge across a broad range of program areas that affect the American people on a daily basis.

What are our programs?

ARS Research is organized into 22 National Programs. These programs serve to bring coordination, communication and empowerment to the more than 1200 research projects carried out by ARS. The National Programs focus on the relevance, impact, and quality of ARS research.
